

## SOURCING

Today sourcing is one of the key factors to your success. Throughout our 20 years of experience in this field we are able to offer you what you are looking for. We have created our own sourcing department that offers not only ordering and purchasing of fabrics and trims for your production, but also searching for materials you need - at fair prices!

### Producers Network in Europe and Asia

We have created with our partners in Europe and Asia an extensive network of producers. Today it consists of the most qualified and reliable suppliers on the market. Our sourcing department will find what you are looking for - working hand in hand with our logistics team, we will make sure that all is produced and shipped on time to avoid any production delays.

### Full Trim Development

With our excellent sourcing competence in our offices throughout Europe and Asia, we are able to:

- Develop trims
- Develop prints
- Develop labels
- Customize embroideries and specialised trims
- Handle lab dips, hand looms, strike offs, mocks ups.
- Develop custom fabrics
- Test trims and fabric to conform to individual customer's standards

Anything else you need? Just inquire! We will make sure to find it and to make it available for your production!
